Javascript Junkie and an undercover **Pokemon Master**.

Can be found **brainstorming new ideas** and **squashing obtuse bugs**.

Currently building marketplaces for developing countries at Saltside.

Experience

Web Engineer

Saltside

July 2016 - present

Contributed to the web stack (front-end and server-side, **ExpressJS + PugJS + React/Redux**) that impacts millions of users across Saltside's four products - **Bikroy.com, Ikman.lk, Tonaton.com** and **Efritin.com**.

The workflow involves taking a feature from design, to development, through testing and then deployment.

Was promoted to Web Engineer from Associate within 6 months of joining.

Intern - Front End Dev

Inquizit & Gr8Fynd

Oct 2015 - Feb 2016

Desktop Web and Android UI/UX for two start-up projects. Worked on **front-end web development, UI/UX mocking**, branding, identity & marketing for both projects.

Technical Intern

HOUSING.com

May 2015 - July 2015

Placed second in RealHack by Housing and was hired as an intern.

Worked on Backoffice Panel, a CMS for internal use, built with **AngularJS**.

Projects

Accelerated Mobile Pages

at Saltside

Converted all catalogue pages to conform to Google's AMP specification. An experimental project that paid dividends, **increasing organic mobile traffic by 48%**

ReviewBot

A solution to a common problem faced by organizations using Slack and Github. ReviewBot is a **slack integration** that helps ease and speed up the Pull Request review process. **Improved the efficiency of teams at Saltside.**

Open Voting Platform

Built a **Real-time voting platform**, using the **MEAN stack and Firebase**, for ACM elections at PESIT South Campus. This was a technological **solution to an otherwise manual election process.**

Talks

An Introduction to Redux

August 2017, Saltside, Bangalore

<https://github.com/abinavseelan/introduction-to-redux>

Camp Node - An introduction to building web applications

March 2016, PESIT Bangalore South Campus
